HTML5, CSS3, SASS, LESS

Unit Testing:
Jest / Jasmine / Karma

UI Libraries:
Bootstrap / Material UI

API Integration:
Restful API

Version Control:
Git / SVN

PROPESSIONAL SUMMARY

Role and Background

I am an experienced front-end developer with a strong focus on delivering results. I have proficiency in various front-end technologies such as **Vue.js**, **Angular**, React, **TypeScript**, and **JavaScript**. With over **15 years** of experience, I specialize in crafting dynamic and responsive user interfaces. I excel in translating complex business needs into refined, effective solutions and consistently deliver superior projects within designated timelines and budgets. I am committed to staying updated on the latest front-end development advancements and am skilled in creating and improving Rich UI web applications following usability standards. I possess comprehensive knowledge of cross-browser compatibility, front-end development concerns, Semantic HTML Coding/W3C standards, Responsive web design, user-friendly interfaces, and Google Analytics/SEO-friendly architecture (web 2.0 concept layouts). Additionally, I have demonstrated domain expertise and functional proficiency in the "**Banking and finance**", "**Retail**", "**Manufacturing**" and "**Travel, Transport, and Hospitality**" sectors.

Representative Accomplishments

- Performed Developer/Lead Developer roles for various clients like Maersk/APMT, Vanguard, Genworth, Legal & General, PruHealth, HDFC, DaVita etc.

- Responsible for Requirement Analysis, Estimation, Planning, Execution, Coordination and Product release.

- Design and develop high/low-level layouts & prototypes as per business requirements. Client communication regarding business and technical requirements based on project requirements.

WORK EXPERIENCE

Technical Lead (Senior Software Engineer)

Tata Consultancy Services / November 2012 – **till today** / Maidenhead, UK

- Lead the frontend development team in the successful implementation of several key projects using Vue.js, Angular, and Backbone JS.

- Collaborated with UX/UI designers to create visually appealing and user-friendly interfaces.

- Developed reusable and modular components to improve code maintainability and scalability.

- Implemented responsive designs, ensuring seamless user experiences across various devices.

- Integrated third-party APIs and services to enhance the functionality of web applications.

- Conducted code reviews and provided mentorship to junior developers to foster a culture of continuous learning.

- Actively participated in the decision-making process regarding technology choices and architectural decisions.

Senior Software Engineer

Future Focus Infotech Pvt Ltd / October 2011 – October 2012 / Pune, India

Consagous Technology Pvt Ltd / August 2011 – September 2011 / Indore, India

- Played a key role in the migration of legacy systems to modern frontend frameworks, resulting in improved performance and user satisfaction.

- Utilized TypeScript to enhance the robustness and maintainability of codebases.

- Worked closely with cross-functional teams to gather and analyze business requirements.

- Implemented and maintained unit testing processes to ensure code quality.

- Developed custom themes and styles to align with branding guidelines.

- Provided ongoing support and troubleshooting for existing applications.

Software Engineer

Ideavate Solutions Pvt Ltd / October 2009 – July 2011 / Indore, India

Zoom Developers Pvt Ltd / February 2008 – October 2009 / Indore, India

- Gained hands-on experience in frontend development while working on various projects using JavaScript, HTML, and CSS.

- Collaborated with senior developers to implement new features and optimize existing code.

- Contributed to the design and development of user interfaces for web applications.

- Assisted in debugging and troubleshooting issues to ensure smooth project delivery.
